13(b) RAGHAVAN COMMITTEE'S RECOMMENDATIONS

The candidates must read the recommendation of the Raghavan Committee constituted by the Hon'ble Supreme Court in order to prevent any incidence of ragging. The Institute will comply the Hon'ble Supreme Court's guidelines and follow the recommendations of Raghavan Committee report on the issue.

- Based on the interactions and the elaborate methodology followed by it, the Committee is convinced that the society at large considers ragging as a definite menace. We are equally

convinced that softer options have not worked and therefore it is time for tough measures. The Committee recommends, for curbing ragging in educational institutions, the active involvement of media and the civil society is essential.

- At the level of the Higher educational institutions, it should be mandatory for the student at the time of admission to submit documentation in respect of (i) the school leaving certificate/character certificate which will include a report on behavioural pattern. (ii) An annual undertaking to be signed by each student, whether fresher or senior, and his/her parent(s) jointly stating that each of them have read the relevant instructions/regulations against ragging, as well as punishments. Such undertaking should also be obtained from the students before they are admitted to the Hostels.
- The Committee feel that it is extremely important that this requirement of a binding undertaking is complied with by all institutions, and some superior level bodies must cross-verify and vouch that there is strict compliance thereto.
- The Committee recommends that in every institution, the freshers day' or 'welcome party' shall be concluded within the first two weeks of beginning of the academic session. In any such event, college faculty must be present and must ensure that no ragging or untoward incident takes place on the occasion.
- The Committee recommends that every institution must have an Anti-Ragging Committee and an Anti-Ragging Squad. The Committee should consist of the representatives of civil and police administration, local media, NGOs involved in youth activities, representatives of faculty members, representatives of parents, representatives of students belonging to the fresher's category as well as seniors, non-teaching staff and it should be headed by the Head of the Institution.
- Appointment of 'Mentoring Cell' in each institution to oversee and involve senior students as

Mentors for the 'freshers'. It should be formed at the end of each academic year.

- The Committee recommends that anonymous random surveys must be conducted by each institution, across the entire first year batch of students (freshers) every fortnight during the first three months of the academic session, to verify whether the campus is indeed free of ragging or not.
- The Committee recommends that private commercially managed lodges or hostels outside campus, such hostels and management must be registered with the local police authorities. Permission for establishment of such hostels should be recommended by the Head of the Institution.
- The Committee suggests that the complaints in regard to ragging could be oral or written and even from third parties and the confidentiality of the source of information must be protected at all costs. Remedial action must be initiated and completed within the week of the incident itself.
- The Committee recommends that preventing or acting against ragging should be the collective responsibility of all levels and sections of authorities or functionaries within the institution.
- Hostel Wardens must be accessible at all hours and they must be issued mobile phones by the Institutions.
- The Committee recommends that at the level of the University there should be Monitoring Cell on Ragging, which should coordinate with the affiliated Colleges and institutions under its domain.
- The Committee suggests that the Heads of Institutions should be required to submit, to the Vice-Chancellor the University, weekly reports during first three months of the reopening of the institution and thereafter reports each on the status of compliance with anti-ragging measures.
- For purposes of timely communication, the Committee recommends, the students should have access to the public phones/mobile phones etc. in hostels and campuses.
